

My Radio Gal

Music by F & H Neumann

Lyrics and Words by H.W. Morrissey

I can hear that buzzer ringing feel the message it's bringing,
It's from my cute dear little pal – you wonderful Radio gal -- my sweet little pal
My poor heart is in a flurry to get that receiver to my ear
Flash and it's a call that I hear from my own dear Radio pal.

CHORUS

My Radio gal – my wireless pal – take this message from me – it's just as sweet as can be – for the whole
world will listen in – when you and I begin – for we should worry, just you hurry and so take love's old
message from me.

I can hear that wireless singing, know the call is coming in
It's from that sweet, wonderful gal – that true blue eyed Radio gal
My own little gal – with a heart so big so true that loves no one in this world but you
And could sit and listen all the night long and hear my own sweet Radio song.
